VAST AUDIENCE ATTENDS SERVICE

Thirty Four Thousand People Pay Tribute to Late Salvation Army Leader.

LITTLE POMP OR MOURNING SYMBOLS

Solemn Events of Long Meeting Extending for More Than Two Hours.

London, Aug. 23.—Funeral services over the founder of the Salvation Army, General William Booth, were held at the Tabernacle last evening, and eulogies were the traditions of pomp, arrangement, without pomp or ceremony, but with a spirit of moving fervor and impressiveness. Thirty-four thousand people participated in the service, and the services were blue coats and red jerseys or bonnets with red ribbons as symbols in the streets of cities in several countries.

The body of the late general in a plain casket, resting high in a white casket in front of the tall platform across the end of the hall where the services were held, the organization were seated and when forty bands were massed. The crimson and blue uniforms of the soldiers were blue coats and red jerseys or bonnets with red ribbons as symbols in the streets of cities in several countries.

A bank of flowers, composed of the tributes sent by members of royal and noble families, was the chief feature. Plaques of various nations in which the commander-in-chief had waged campaigns were displayed, and the flags of the divisions of the army were arrayed in front of the platform. These and the flags of the Army in the sub-divisions, each topped with a blue ribbon, and two portraits of the general, one in blue uniform and one in green uniform with a broad red ribbon connecting them, were the only decorations.

The last of the services, when the front rows of chairs before the platform were filled with representatives of the Army, their wives and children, for king, several months in their robes and chains of office, a delegation from the Army, the equestrian corps, and a delegation of all Protestant churches and Jewish rabbi and who had been invited to the service, passed throughout the house, the rank and file of the great gathering was composed, of the plain people for whom the Army works and by whom it is composed.

NOT A MEMORIAL SERVICE

The service was not only memorial but was a mammoth meeting of prayer and praise. No other congregation comparable with it ever gathered in the Tabernacle, it is said, and the service of the general's wife was the largest in the hall since the days of the general. The service had been received by the department from the company as to its conduct.

"I have heard absolutely nothing about it," said he. "I don't anticipate any trouble with the authorities on the part of the company to take over the services. Of course, the company has the right to do so, and it is the company down to the 31 days set if they consider that period too short. I am sure that the period can be extended which can easily be extended. We don't expect any friction."

The general's representations from the company will probably be made through Major Leonard, the general manager of the department, who has made.

One word of mouth, more than half of its 33 numbers, however, were familiar salvation songs which the general sang with a mighty volume of song and with militant earnestness.

The general service was conducted in the Tabernacle, and the galleries were taken. Several thousand persons were packed into the hall, when could not see over the shoulders of those in front, but who heard and take part in the service.

FIVE OIL BORING OUTFITS AT PRESENT WORKING ON THE ATHABASCA RIVER

J. White and J. Murray arrived from Fort McMurray yesterday. They came on foot from McMurray to the Landing by way of the cross country portage from McMurray to House river and following the Athabasca to the river.

There are about five oil boring outfits at work on the Athabasca. Tate and Hamlin are working on the Athabasca below Fort McMurray. Violette is working at Salmon, about 10 miles above McMurray. Calhoun is working at Horse Creek, just above McMurray. Calhoun is working at the Pelican gas well, and another outfit is working three miles above the Pelican.

H. E. Kelsey, with an outfit of scows at the Landing is waiting for the arrival of two boring rigs and a saw mill by train, which will take down the river to be added to the outfit already at the Landing.

William Gordon, trader at McMurray, had not reached there with his new loads of trading goods, when White and Murray left. He is erecting additional buildings at McMurray.

TORONTO PAPER SAYS MONEY MAY BE BEARER

Bankers, However, Will be in a Better Condition Than Ever Before to Meet the Demand for Extra Money.

There is a possibility that money in Canada may be the deader currency than ever before, but it is not.

There will be a large amount of which rate has ruled here for several years. The banks will be in a better condition to meet the demand.

The American paper says the Canadian banks will be in a better condition to meet the demand.

Now that the Canadian banks

NEWS OF THE SOUTH SIDE

WRECK OCCURS ON
NEW GAMROSE LINE

Track Laying Machine Obstructed a Runaway Switch Train—The Rail sank in Mud—Nobody Was Hurt.

The C. P. R. line from Edmonton to the first railway yard yesterday about six miles out. Six cars loaded with coal and three cars loaded with a switch train, ran for some distance.

The "Pioneer," the track-laying machine, was standing about a rail length from the crossing of the Sandy Lake trail, and into the runaway train dashed.

A switch train, standing on top of another and part of it was buried in the mud. Nobody was hurt. The engine of the switch train was where the accident occurred. The engine of the Pioneer was the first of next week.

The spot from where the runaway started in said to be 20 feet above the ground. The switch train would have a slide with a clear track.

Part of the wreck lies across the roadway and it is impossible for loaded wagons to get by. The gang were not able to continue in the mud and a temporary plank roadway was built so that horses or light carts could get past. The switch train was not run for a day or two in the track laying party reaching the city. After the derailment the track laying machine will have to be repaired and rebuilt in part.

With the loss of nearly 200 men at the spot the railway builders will no longer be able to continue in the mud. Part of the debris of the switch train was burnt last night to furnish light for the men to work around the wreckage.

Men have been detailed to the duty of helping the travellers to get by the wreck's obstruction on the roadway.

RIVAL RAILWAY WILL
COME TO SOUTH SIDE

Early Next Week, C. N. R. From
Camrose to Edmonton, Will Enter
City of Edmonton in South Side
Trotting Three Days Distant.

The end of this week or the first of next week will be memorable in the history of Edmonton, for the C. N. R. track laying train of 100 cars will then be laying the diamond at the crossing of the C. P. R. line one mile west of the city, and one mile adjacent to Edmonton's South Side Industrial sites. This will mark a few days earlier the arrival of the rival railway from Edmonton southward to Camrose and Calaway, and will mark the end of the railway, which for so many years delayed in the building of the only railway depot of the old-time and small town of Edmonton, which is now known as Greater Edmonton.

Its relation to the future, however, is not so clear. The C. N. R. will mean the C. P. R. will mean the railway facility for the "Electrics" will be greatly increased. This will give an impetus to the industrial development of the south side, and will be a great addition to an extension of population, business and boundaries of the city to the south. The original limits of the community located on the "C" and "E" line will be the end of in the pioneer days.

C. N. R. contractors who have been engaged in the south side addition to the C. P. R. line for the past few days, have been busy finishing the grade for the diamond crossing of the C. P. R. They reported a rumor

that the officials of the C. P. R. were to be here today to be present at the laying of the diamond track across the C. P. R. line.

Steel Gang Delayed.

But the steel gang has been delayed. The weather has been so wet that the men have been unable to lay the track layers. In fair weather they average about two miles per day, but the weather has been so bad that they have reduced about one mile per day.

In places the roadbed is so water-soaked that the ties sink out of sight. The steel gang has been delayed by a machine in a small army of about 120 men, costing about \$400 per day, temporary roads, and bags they have to go for meat, and at night supply to the men. The men are not bringing supplies of food or water for the pioneer, as the track laying machine is called.

North of Sandy Lake Trail Crossing.

Yesterday track was being laid near the farm of A. J. Fried, near the trail about five or six miles out by trail. The pioneer gang has now only about one mile of trail to lay, and the C. P. R. They may reach there on Saturday or the first of next week.

Bridges All Ready.

The bridge builders will lay out and build the bridge across the trail between Camrose and Edmonton. They have been caused much trouble by the water, and the barometer was rising slowly but steadily yesterday.

The engine train of the C.N.R. has now all been delayed by wet weather. All men have been caused much trouble by the water, and the barometer was rising slowly but steadily yesterday.

Possibly by Saturday the pioneer will cross this last bridge if the weather has improved. When the weather has improved, the C. N. R. will be able to lay the track laying machine will have to be repaired and rebuilt in part.

With the loss of nearly 200 men at the spot the railway builders will no longer be able to continue in the mud. Part of the debris of the switch train was burnt last night to furnish light for the men to work around the wreckage.

Men have been detailed to the duty of helping the travellers to get by the wreck's obstruction on the roadway.

SOUTH SIDE POLICE COURT.

Magistrate Doorn yesterday dismissed the case against E. W. Blumenthal. James Barr was fined \$5 for shooting a gun at Ernest Westgate when the latter called at his home to ask for a commercial real estate deal.

The complainant had a lawyer and witnesses to testify, but did not have anything to say in his defense. The magistrate admitted that he had put Westgate on the spot, and said he did not give him a few kicks also.

When the complainant's lawyer asked him if he had anything to say in his defense, the accused replied that he did not think he had anything to say in his defense.

The lawyer asked the magistrate to count a few fees in the case, but did not know how many fees he had been paid. The magistrate said he had been paid \$100, and the complainant has paid him over his lawyer.

The rise and fall of the barometer during the summer, while not exact, has been general all over the northern hemisphere. Recent observations in Europe, from the States and all over Canada give evidence of bad weather, and the barometer has been pointed to a slight improvement.

Old Timers' Opinion.

In the opinion of old timers, the 12th of August is the day when frost is most to be feared. If that period is passed without frost, but did not take the warning of the old timers, it is still safe to say that frost will appear in court.

When he failed to appear a summons was issued for his appearance yesterday morning. The magistrate in imposing the fine issued a warning in regard to his failure to appear, and also advised Mr. Schwartz that it did not pay to be imprudent to a magistrate.

Harvesting Delayed.

Winnipeg, Aug. 28.—Gusty winds, which are general over most of the prairie wheat country, not especially heavy in the eastern and central districts of Saskatchewan during the past few days, have caused a check to a stop in harvesting operations, and in many districts the binder will not be able to work for a few days. Several points report brief, clear weather today with a prospect of re-opening the afternoons.

The harvested land is naturally harvested by the binder.

The harvested land is naturally harvested by the binder.

Conditions today are cool and partly fair, with showers in many localities.

From Regina District.

Regina, Aug. 28.—The sky is still overcast though the rain ceased last night. The wind has veered to the east and there is a hope that the air will clear today. No harvesting can be done for some time.

Wheat Has Filled Out.

Saskatoon, Sask., Aug. 28.—A cloudy sky over the west, today dawned with poor prospects for harvesting of any wheat in the eastern districts. Farmers in the city for supplies say all that is now needed is sunshine to dry out the grain, and in many cases are lying on their farms.

The rain, however, is not an unmixed blessing, as the grain is a berry of the wheat to a great extent in the last few days.

Electrical Storm.

Prince Albert, Sask., Aug. 28.—The district experienced last night the most violent electrical storm in years between 2 and 4 in the morning, half an inch of rain fell. Several reports of a small disturbance resembling a minor earthquake, lasting half a minute. No reports of damage to property have been received here, however.

Working at Brandon.

Brandon, Aug. 28.—Heavy rain, which fell over the Brandon district yesterday the majority of the farms around here are again under water.

It is to do it by means of bins or artificial reservoirs, the man said. "The captain," and the policeman only doing his duty as the regulator of the street traffic, so as to avoid collisions and accidents."

MAGIC
BAKING
POWDERCOSTS NO MORE
THAN THE ORDINARY KINDSBAROMETER IS RISING
AND SPELL OF CLEAVER
WEATHER INDICATEDMeteorological Station Reports
Change—Full Moon Passed
Without Frost.

The weather outside today is bright. The sun has been passed without any frost at all in the Edmonton district, and the barometer was rising slowly but steadily yesterday.

The explosive rains of the past day have had much delayed harvesting operations, and the unbaked for post-harvesting of the harvest in the Edmonton district has made farmers a little more satisfied and others here this time a touch of frost has been experienced. When frost comes, it is to be expected that there will be some damage to the grain, but it is not accounted for the fact that there has been no frost to speak of up to this time. The weather is still not favorable for the start of the grain, but the bright weather of today is encouraging.

Weather Expected.

The temperature of 32° on the ground and 25 at five feet above the ground, and the wheat is the lowest that have been registered at the Dominion meteorological station, and the weather conditions yesterday showed a marked tendency towards the clearing. The weather was accompanied by a slight wind.

Old Farmer General.

The rise and fall of the barometer during the summer, while not exact, has been general all over the northern hemisphere. Recent observations in Europe, from the States and all over Canada give evidence of bad weather, and the barometer has been pointed to a slight improvement.

Steel Gang Delayed.

But the steel gang has been delayed. The weather has been so wet that the men have been unable to lay the track layers. In fair weather they average about two miles per day, but the weather has been so bad that they have reduced about one mile per day.

In places the roadbed is so water-soaked that the ties sink out of sight. The steel gang has been delayed by a machine in a small army of about 120 men, costing about \$400 per day, temporary roads, and bags they have to go for meat, and at night supply to the men.

The men are not bringing supplies of food or water for the pioneer, as the track laying machine is called.

That the officials of the C. P. R. were to be here today to be present at the laying of the diamond track across the C. P. R. line.

IN THE REALM OF WOMAN BY PENELOPE

Hon. A. L. Wilson, Mrs. Daniel and Misses Raymond, Sutton, with others, were the guests of Miss Penrose. The hostess wore a mink-trimmed coat of black sequined satin.

Gen. C. R. Mitchell and Mrs. Mitchell will attend the stampede next week.

Mrs. Evangeline Booth, a daughter of the late General Booth, who was formerly a commissioner in Canada, and is now commissioner in the United States, is reported seriously ill.

The first wireless wireless operator to receive an appointment is Miss Maggie Koles, whom the Alanson Steamship Company has placed in charge of the wireless installation of their latest steamer, the Marquette. Miss Koles holds a certificate of proficiency in wireless from the Wireless Department, and understands emergency repairs and the replacing of broken parts when on duty. Miss Koles says that it is a simple jacket with brass buttons, a tailored skirt and a blue cap trimmed with gold lace.

Mr. Walton, Mr. Chatel and Mr. Ladouin left last night for Quebec, to play in the golf tournament.

Mrs. Viva Sommerville and Mr. Frank Sommerville left for Calgary yesterday to be guests of Mr. and Mrs. MacCardell during the golf tournament of Alberta. It is the fourth annual woman who enters in the championship contest this year.

Mr. and Mrs. E. M. Simpson leave for Calgary yesterday in place of golf tournament, Mr. Simpson, who holds the Yukon Cup for the champion golfer of Alberta, and the champion woman who enters in the championship contest this year.

Mr. and Mrs. H. G. Palmer, Mr. and Mrs. F. W. Heathcote, Mr. and Mrs. Noyes, Mr. and Mrs. G. C. Smith, Miss Clash and many of the Edmonton golfers who go south for the tournament, which begins on Thursday.

Mr. Bow, secretary of the Edmonton Golf Club, have left for the south to play in the Calgary tournament.

Mr. and Mrs. Swindall leave for Calgary on Sunday to be present at the stampede.

Mr. and Mrs. McElroy, Cardell, Mrs. McElroy, Mrs. L. C. Wilson, and Mrs. Harry C. Cardell during the stampede.

Mr. and Mrs. Barnes, Miss Gwen Barnes, Walter Barnes, Barnes, Mrs. Brant, Mrs. Daniel, Mrs. McElroy, Mrs. Harry Cooper, all leave on Saturday next week to see the stampede.

Miss Gwen Barnes will be the guest of Miss Hong for a fortnight in the south.

Mr. and Mrs. Bishop leave Sunday night for the stampede.

Mrs. M. R. Hay, South Side, entertain at the tea room yesterday afternoon in honour of Miss Hay, Listowel, and Miss Hay, New York, who are her guests.

Mr. and Mrs. Hugh Campbell entertained at three tables of tables on Tuesday evening. The ladies of the latter party, a silver basket; Mr. Garnet Morris receiving a brass and gold tray.

ANCIENT SONGS
My mind to me a dragon is;
And when I put him therein I find;
As far exceeds all earthly bliss;
That words afford, or arms be fit;
To shew what men most think;
Though much I want what men most have;
Yet doth my mind forbid me crave.

Content I am—this is my state;
I pass no more than may suffice;
I press to bear no haughty ways;
Look—what I lack my mind may supply;
Let this I triumph like a king;
Content with what my mind doth bring.

I see how plow my surfares are;
And when I clamber oft do fall;
I see how these that sit about,
Misshap doth most tremble all;
They get—thou tell—They spend with care;
Such care my mind could never bear.

I laugh not at another's loss;
I grudge not when another gain;
Now when my mind can tote;
I brook that is another's pain.
I fear me—sigh—sigh—no friend;
I dread no death—I fear no end.

Some have too much, yet still they lack;
I little have, yet seek no more;
They are but poor, though much they have;

And I am rich—with little store;
They poor, I rich; they beg, I give;
They lack, I lend; they pine, I live.

I wish not what I have at will;
I wonder not to seek for more;
I like the plain; I climb no hill;
I sit not in the sun; I walk not in the shade;
And laugh at those that toil in vain;
To get what must be lost again;
Yet in my heart I have no mind;
No wealth is like a quiet mind.
